

Gardner Denver Mobile/Transport Products

Who We Are

Worldwide Industrial Manufacturer

- Gardner Denver, Inc.
1800 Gardner Expressway
Quincy, IL 62305
www.GardnerDenver.com
- Established in 1859
- NYSE traded 1993, symbol GDI

What We Do

With 150 years of manufacturing experience, Gardner Denver is a recognized leader providing compressed air and gas, vacuum and fluid transfer technologies to industries throughout the world.

Mobile/Transport Products

Gardner Denver is the only supplier to the industry that meets all your dry bulk, chemical, hydraulic and sanitary equipment needs.

Our product lines represent a proven history and reputation for quality, dependability and performance.

- CycloBlower®, DuroFlow®, Wittig®, Aqualine®, Drum products including Hydrapak®, Compressors, Vane and Lobe Blowers, and Food Pumps
- Gardner Denver is one of the world's largest manufacturers of positive displacement blowers, exhausters & vacuum pumps
- Our products are backed by extensive local and factory trained aftermarket service and support

Markets Served and Applications (partial list)

- Dry Bulk Handling
- Food Grade Products
- Chemical Transfer
- Hydraulic Cooling
- Sewage Cleaning
- Sludge Handling and Waste Disposal Systems
- Pressure Off-loading of Bulk Liquids

Where We Operate

- Division Headquarters ~ Quincy, IL
- Research and Development ~ Quincy, IL
- Manufacturing Facility ~ Sedalia, MO
- Remanufactured Machines ~ Fishers, IN
- Sales & Service ~ Worldwide

Why Gardner Denver

- Tradition
- Innovation
- Results
- Quality
- Service

Experience Proven Results™

GD CycloBlower® Transport Series

- Helical Screw
 Airflow to 1,060 cfm
 Pressure to 18 psig
 Vacuum to 17" Hg
- Efficiency leader at higher pressure
 - Quiet, shock free compression
 - Clean air & gas delivery
 - Higher pressure & vacuum performance

GD DuroFlow® Transport Series

- Rotary Lobe
 Airflow to 1,000 cfm
 Pressure to 15 psig
 Vacuum to 15" Hg
- 60+ years of proven results
 - Advanced oil/air seals for reliable air delivery
 - One piece rotor/shaft for increased durability

GD D807/D907® Transport Series

- Drum Lobe
 Airflow to 1,300 cfm
 Pressure to 20 psig
 Vacuum to 17" Hg
- Up to 20 psig continuous duty operation (D807)
 - Reduced noise and pulsation
 - Easy maintenance

Food Grade & Chemical Handling Series

GD150 OIL FREE COMPRESSOR

- Radial Vane
 Airflow to 75 cfm, speed to 1800 rpm
 Pressure to 36 psig
- Fast discharge rates
 - Low viscosity liquid discharge from multi-purpose tank-trucks and other tank containers
 - Highly corrosion resistant, light weight

GD HPD450/E490® Transport Series

- Drum Vane
 Airflow to 325 cfm
 Pressure to 30 psig
- 100% oil free air
 - Robust and compact
 - Low noise operation

STP 125 STAINLESS STEEL FOOD & CHEMICAL PUMP

- Tri Lobe
 Flow to 232 gpm
 Pressure to 140 psi
- Tri Lobe impeller design for reduced noise and pulsation
 - Ideal for Food-Grade Products Transfer

MH Series Hydrapak®

- Hydraulic Drive Cooling Systems
 Flow rate to 60 gpm
 Pressure rated to 3500 psi
 Stainless steel construction

Wittig® Transport Series

ROTARY VANE COMPRESSORS AND VACUUM PUMPS

- Airflow to 377 cfm (RFL), 906 cfm (RFW), 341 cfm (RTL)
 Pressure to 29 psig
 Vacuum to 24" Hg (RFL & RFW)
- Wide range of installation options
 - Simple to operate, robust with minimal maintenance

AQUALINE SERIES

- Liquid-ring compressor/
 Vacuum Pumps
 Airflow to 1803 cfm
 Pressure to 22 psig/
 Vacuum to 27" Hg
- Ideal for Sludge Handling
 - Lightweight and compact
