THE REVOLUTIONARY FULL-FLAT SWITCH

The Full-Flat form factor has redefined many facets in life. Aeroplane seats, TVs, Mobile phones, Electric stoves and now switches.

Aesthetically pleasing flat switches are available, but only exclusive to luxurious electronic switches and lighting automation systems. The ZENcelo Full-Flat switch has been created for those who prefer electro-mechanical switches. Even on switches you never imagined can be Full-Flat...

With ZENcelo, luxury is no longer defined by price. But by wisdom - and style.

in·stan·ding / n'stænd ɪŋ / n 1 The wisdom of being able to distinguish exquisite from extravagant, substantial from superficial, and truly outstanding from merely standing out; 2 The ability to mix and match the best in life without being constrained by hype or stereotype; 3 The self-confidence that comes from being able to live with the approval of one's inner soul rather than conforming to peer-pressure; 4 A refusal to simply follow the crowd. □ **adj** A state of displaying in-standing characteristics, esp. in relation to behaviour or lifestyle

ENABLED BY A NEW PHYSICS

Switch designs are limited by many factors, primarily the switch mechanism. The patented “impress” (iso-motion-press) mechanism ensures the switch dolly remains stationary when it is “on” or “off”, and at the same time occupying a much smaller footprint. Freedom in design has become a reality.

Enabled by impress.mechanism, ZENcelo makes the future flatter than you ever imagined.

INDICATE

THE CURRENT STATUS

Form does not sacrifice function. Knowing when the Full-Flat switch is turned on is not taken for granted.

The patent-pending “Ondicator” changes to marigold when switched “on” and blends into the same colour as the dolly when switched “off”.

Meticulously designed to the finest detail – Not only for looks, but also for practicality.

EMBRACE QUALITY

Made of corrosion resistant, heat resistant and impact resistant polycarbonate.

Data socket with patented integrated shutter.

Electrical socket with reinforced-nylon protective shutter.

Switches are electric arc encapsulated.

Philips head screw to fit both flat and cross head screwdrivers.

SABS compliant.

All RoHS compliant.

An outstanding person adds value to the work and life of other people, always doing the right thing at the right place, with a just-right degree of visibility. After all, the art of addition is not about shouting out loud. It's about an in-standing way of being.

ZENcelo, the revolutionary Full-Flat switch for an in-standing interior design.
