

# P25 / P50

The P50 and P25 counter-current laboratory pan mixers are ideal for laboratory testing applications or specialised mixing applications such as resins, clays and powders.

## Features:

- Mixing arm tilts for ease of access to pan
- Pans easily removed from turntable
- Tilting mixing star and spring-loaded wall scraper
- Removable pan allows for mixing with a separate pan while the mix is being discharged from the first pan. A number of pans can therefore be used for pigment, concrete, epoxy and similar mixes
- Optional loading trolley for pan
